

I'm the shy lady with ginger hair, big glasses, dressed up like your grandmother. I was born in 1992 and based in Italy, between mountains and lakes. My work is highly inspired by old movies, period costumes and hairstyles, fashion, beauty and history. I love mixing elements from the past with contemporary ones, in order to create new stories and new worlds - sometimes quirky and cheeky! I love telling stories with patterns and maps too! When I'm not at my worktable you can find me traveling, seeking for oddities at flea markets and practicing vintage hairstyles.
