

I was born in Bologna in 1989 and grew up in the countryside surrounding the city, with my little cat Minù. Since I was young I love drawing and invent stories anytime and anywhere. I always keep my notebook and pen when I go around, ready to write down whatever comes to my mind. I now live in Milan working as a children book's illustrators , surrounded by a laptop, many software, a graphic pens...a husband and my son, but with still many many sheets of paper and colours for writing and drawing always new stories.
