ILLUSTRATION

I have been working as an illustrator for over 10 years now for lots of clients including Scholastic and OUP. I especially like to draw people, vehicles, buildings, maps, puzzles and anything funny, scary or spooky. Drawing has been a passion for as long as I can remember. As a child a packet of felt tips and a new jotter pad would keep me amused for hours...in fact they still do!

I am a Cotswolds based illustrator and art tutor. I have been freelance since 2005, working for countless clients. I mainly specialise in children's illustration and cartoons. My artwork is usually drawn by hand and coloured digitally, but I still work traditionally using pencil, ink and watercolour. I especially like to draw animals, maps, architecture and vehicles, the more complicated the better! I was born to be an illustrator! Love my job and as well as spending time drawing at my desk I love getting out to do workshops and events. Get in touch if you want to chat about potential commissions, I'm always happy to hear from you!
