Jérôme has been working for 20 years in publishing (creation of traditional or vectorized illustrations), communication (image consulting, logo and graphic design, corporate photography), advertising (creation of roughs and storyboards, hyper-realistic illustrations), heritage (visit course, reconstruction of sites), decoration (creation of decorative panels), WebDesign (painting workshop animation, portraitist, lightpainting). Finally, like Leonardo da Vinci, he can easily escape one of his quotes: "Rigor always comes to the end of the obstacle".
