

Hi, I live in Blackpool and love being by the sea. I have a BA Hons in illustration and I love to draw colourful characters! When I'm not illustrating I am drinking tea and enjoying exploring outside with my two daughters.

Bob found Bug at the fairground and brought him home.

On Monday they went to the market. It was full of exciting colours, sounds and smells. There were stalls of bright, ripe fruit and vegetables, tangy cheese, rich aromatic sausages and tasty pies.

Another stall was bursting with delicate cakes and pastries and a flower seller had blooms of every shape and hue. Everywhere they looked there was something interesting to look at.
