

I love to work with traditional media (oils, watercolour, acrylics, Indian ink), digital or a mix between the two of them. I especially love to create characters and imagine worlds for them. Fairy tales, magic and adventure stories are my favourite subjects. Always pursuing my ambition of being an artist, I became an Art teacher, and doing part time illustration work. After teaching for almost fourteen years, I decided to become a full time illustrator. Since then I've contributed to several educational publications, comic books and illustrated several children's books.
